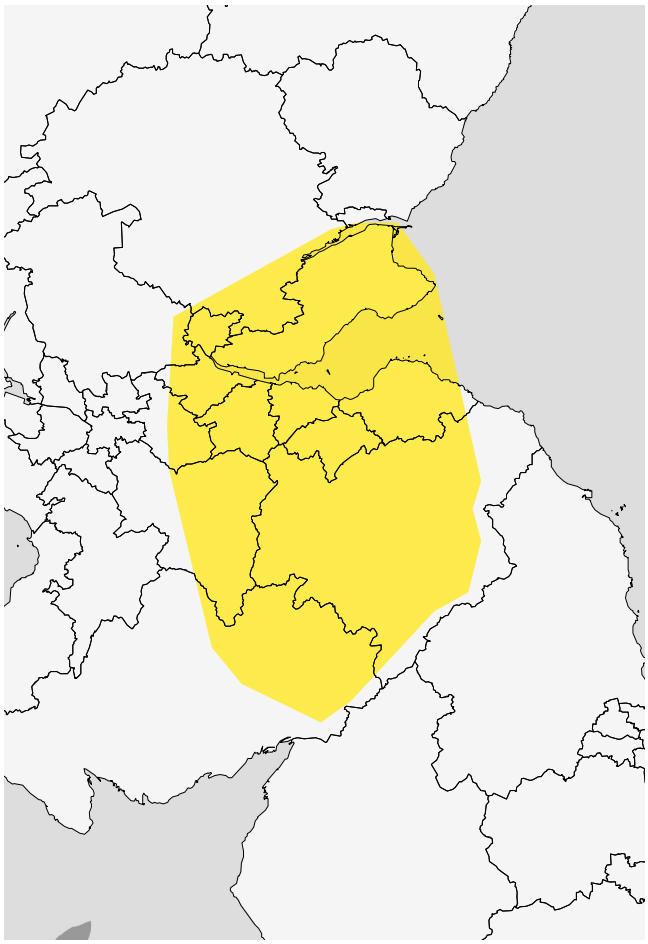
Yellow warning
Rain

Between
21:00 Wed 29 May 2024 and
04:00 Thu 30 May 2024



Heavy rain will fall in places overnight into the early hours of Thursday, perhaps causing some travel disruption and flooding.

What to expect

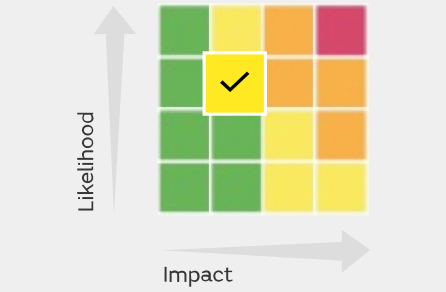
- Spray and flooding on roads probably making bus and car journey times longer, with a lesser likelihood of impacts to rail travel
- Flooding of a few homes and businesses is possible, perhaps particularly where the ground is already very wet following recent days

Further details

Heavy, and persistent rain late Wednesday and into the early hours on Thursday will bring 15-25 mm of rain in places. The ground is very wet in some areas, so even these amounts may bring the risk of flooding, leading to transport disruption.

What should I do?

Check if your property could be at risk of flooding. If so, consider preparing a flood plan and an emergency flood kit.



✓ Medium likelihood of low impacts
